<sup>1</sup>BLS' 2018 National Compensation Survey ([https://www.bls.gov/ncs/ebs/benefits/2018/ownership\\_private.htm](https://www.bls.gov/ncs/ebs/benefits/2018/ownership_private.htm)); data reported is for private employers in the Pacific region unless otherwise noted

<sup>2</sup>Applies to the first \$132,900 in earnings

<sup>3</sup>There is an additional 0.90% tax on earnings over \$200,000

<sup>4</sup>Applies to first \$7,000 in wages

<sup>5</sup>The rate models use the new employer tax rate in 2018

<sup>6</sup>BLS data for vacation and sick leave is based on national data (means) for private employers' employees with 1-5 years of experience (mean for those with 6-10 experience is 15 days of vacation and 7 days of sick leave); it is assumed that all staff with access to paid time off 'participate'

<sup>7</sup>In addition to BLS data, other sources were considered. According to U.S. DHHS' 2017 Medical Expenditure Panel, the average premium across all California employers was \$524.58 with an employer share of \$405.16 (Tables II.C.1 and II.C.2). According to Kaiser's review of individual health insurance plans offered through the State's health insurance exchange, for a 40 year-old non-smoker in California the second-lowest cost silver plan before tax credit (the 'benchmark' plan) is \$338 (<https://www.kff.org/private-insurance/issue-brief/tracking-2019-premium-changes-on-aca-exchanges/>)

<sup>8</sup>BLS provides information for a variety of other benefits that cannot be combined
